### C2 - short staff mobility for training aim - day 4

**The last day of our C2 training was dedicated mainly to summaries and coordination work.**

We discussed the progress of the work on intellectual outputs and pointed out what is missing or needed to be improved. We also set the deadlines for other pieces of work. There was also time to test other games.

Each participant received Certificates of attendance and filled in evaluation forms. After this all participants left to go back to their countries with new knowledge and experience!
