Coordinating organization

Fundacja Centrum Aktywności Twórczej is a fully legal non government organisation, existing in Leszno since 30th December 2008. Foundation CAT was initiated by young, local activists, engaged in cultural and educational development of the local community of Leszno.

The Foundation's aim is to activate the local community, particularly in terms of transcultural integration and to promote the idea of voluntary work. The Foundation creates voluntary work for the youth and supports such activities in the context of older people alike - it is Leszno's Center of Volunteering since 2015.

The main activities focus on three areas: developing knowledge of other cultures, breaking stereotypes, raising the level of knowledge about cultural diversity (including events organized in Leszno such as the Festival of Cultures, the International Youth Day, the Europe Day). The Foundation is a hosting and sending organization within the European Voluntary Service programme, carrying out projects not only in Europe, but also in Africa and Asia.
